

GLOW FROM WITHIN

POWERED BY YOUR OWN BODY

100% NATURAL

Real Results. Real You.

EZGEL uses your body's own growth factors to restore, renew, and rejuvenate with no additives, or chemicals.

ASK OUR TEAM ABOUT THE **EZGEL** DIFFERENCE

HOW DOES **EZGEL** WORK?

Your body holds the secret to youthful, radiant skin. EZGEL simply helps unlock it.

Within your blood are powerful proteins called **growth factors**. They act like messengers, signaling your skin to repair, renew, and regenerate. These natural elements are essential to healing, but under normal conditions, they are dispersed throughout your entire body.

EZGEL captures and concentrates your own growth factors into a potent, gel-like serum. This customized solution is then **gently applied into areas where rejuvenation is needed most**, working deep within the skin to stimulate natural collagen production, restore volume, and improve overall texture.

The result? **Healthier, fresher-looking skin. Powered entirely by you.**

YOUR PERSONALIZED **REJUVENATION PLAN**

SKIN REJUVENATION

- ✓ Improve skin tone and texture from within
- ✓ Reduce the appearance of scars and imperfections
- ✓ Naturally firm and tighten the skin
- ✓ Restore a radiant, healthy-looking glow
- ✓ Rejuvenate hands and décolleté

YOUR **EZGEL** TREATMENT JOURNEY

- **STEP 1: A simple blood draw.**
Just like during a standard lab test, a small amount of your blood is collected.
- **STEP 2: We activate your regenerative potential.**
Your blood is carefully processed in-office to isolate and concentrate the most powerful healing components.
- **STEP 3: Your personalized gel is created.**
Using precise temperature control, your growth factors are transformed into a smooth, injectable gel.
- **STEP 4: We deliver visible results.**
Your custom **EZGEL** is applied to the areas you wish to improve, supporting natural collagen production and skin rejuvenation.

THE 5 EZGEL PROMISES

- 1 COMPLETELY PERSONALIZED**
Crafted from your own biology for results that are truly yours.
- 2 DEEP REGENERATION**
Stimulates renewal from within, starting at the cellular level.
- 3 PROGRESSIVE RESULTS**
Improvements unfold naturally over time, revealing long-lasting beauty.
- 4 COMPREHENSIVE COVERAGE**
One treatment that addresses texture, tone, volume, and radiance.
- 5 NATURAL RADIANCE**
No additives or chemicals; just your skin at its healthiest.

FACIAL TRANSFORMATION

- ✓ Restore volume to cheeks and temples
- ✓ Refresh and brighten tired under-eyes
- ✓ Soften expression lines with natural smoothing
- ✓ Enhance lip contour and fullness
- ✓ Treat delicate areas with precision and care

WHY PATIENTS CHOOSE EZGEL?

Real results that speak for themselves

WHAT PATIENTS SAY

"People keep asking if I've had work done - but it's just me, only better. My skin looks like I'm getting the best sleep of my life."

“”

Sarah, 42

"Unlike other treatments that I had to redo every 8 months, **EZGEL** keeps working. It's been over a year and people still compliment my glow."

“”

Jennifer, 45

FREQUENTLY ASKED QUESTIONS

Is EZGEL safe, and who is it for?

Yes! Since **EZGEL** is made from your own blood, there is virtually no risk of allergic reaction or rejection. It is 100% natural, gentle, and safe.

EZGEL is ideal for anyone looking to rejuvenate their skin using the power of their own body, whether you're focused on early signs of aging or simply want a natural glow.

How is EZGEL different, and how many treatments will I need?

EZGEL is not a synthetic filler, it's your own bio-filler, created entirely from your body's regenerative proteins. Instead of masking aging signs, it helps your skin renew itself from deep within. Most patients see optimal results after 2 to 3 sessions, spaced 4 to 6 weeks apart. Your provider will recommend a plan tailored to your goals and skin condition.

Can EZGEL be combined with other treatments?

Absolutely. **EZGEL** can be used alone or paired with other procedures for even better results. It's often combined with microneedling, lasers, or other skin treatments to boost texture, tone, and overall skin health. Your provider will guide you to the best combination for your needs.
